

The 4th Dimension of Indoor Air Quality

Module 21: The OxyNess.

Oxyness: A New Standard in How We Breathe Indoors

UNTIL NOW, INDOOR AIR QUALITY HAS BEEN MANAGED ACROSS 3 DIMENSIONS:

Module 21 introduces the 4th dimension: Oxygen Enrichment.

Traditional systems provide clean and cool air but don't replenish what matters most — oxygen.

Oxyness is a groundbreaking new metric that measures how enriched, restorative, and energizing indoor air can be. It's not just about what's removed from the air — it's about what's added back.

The Big Idea: Oxyness as the Missing Layer

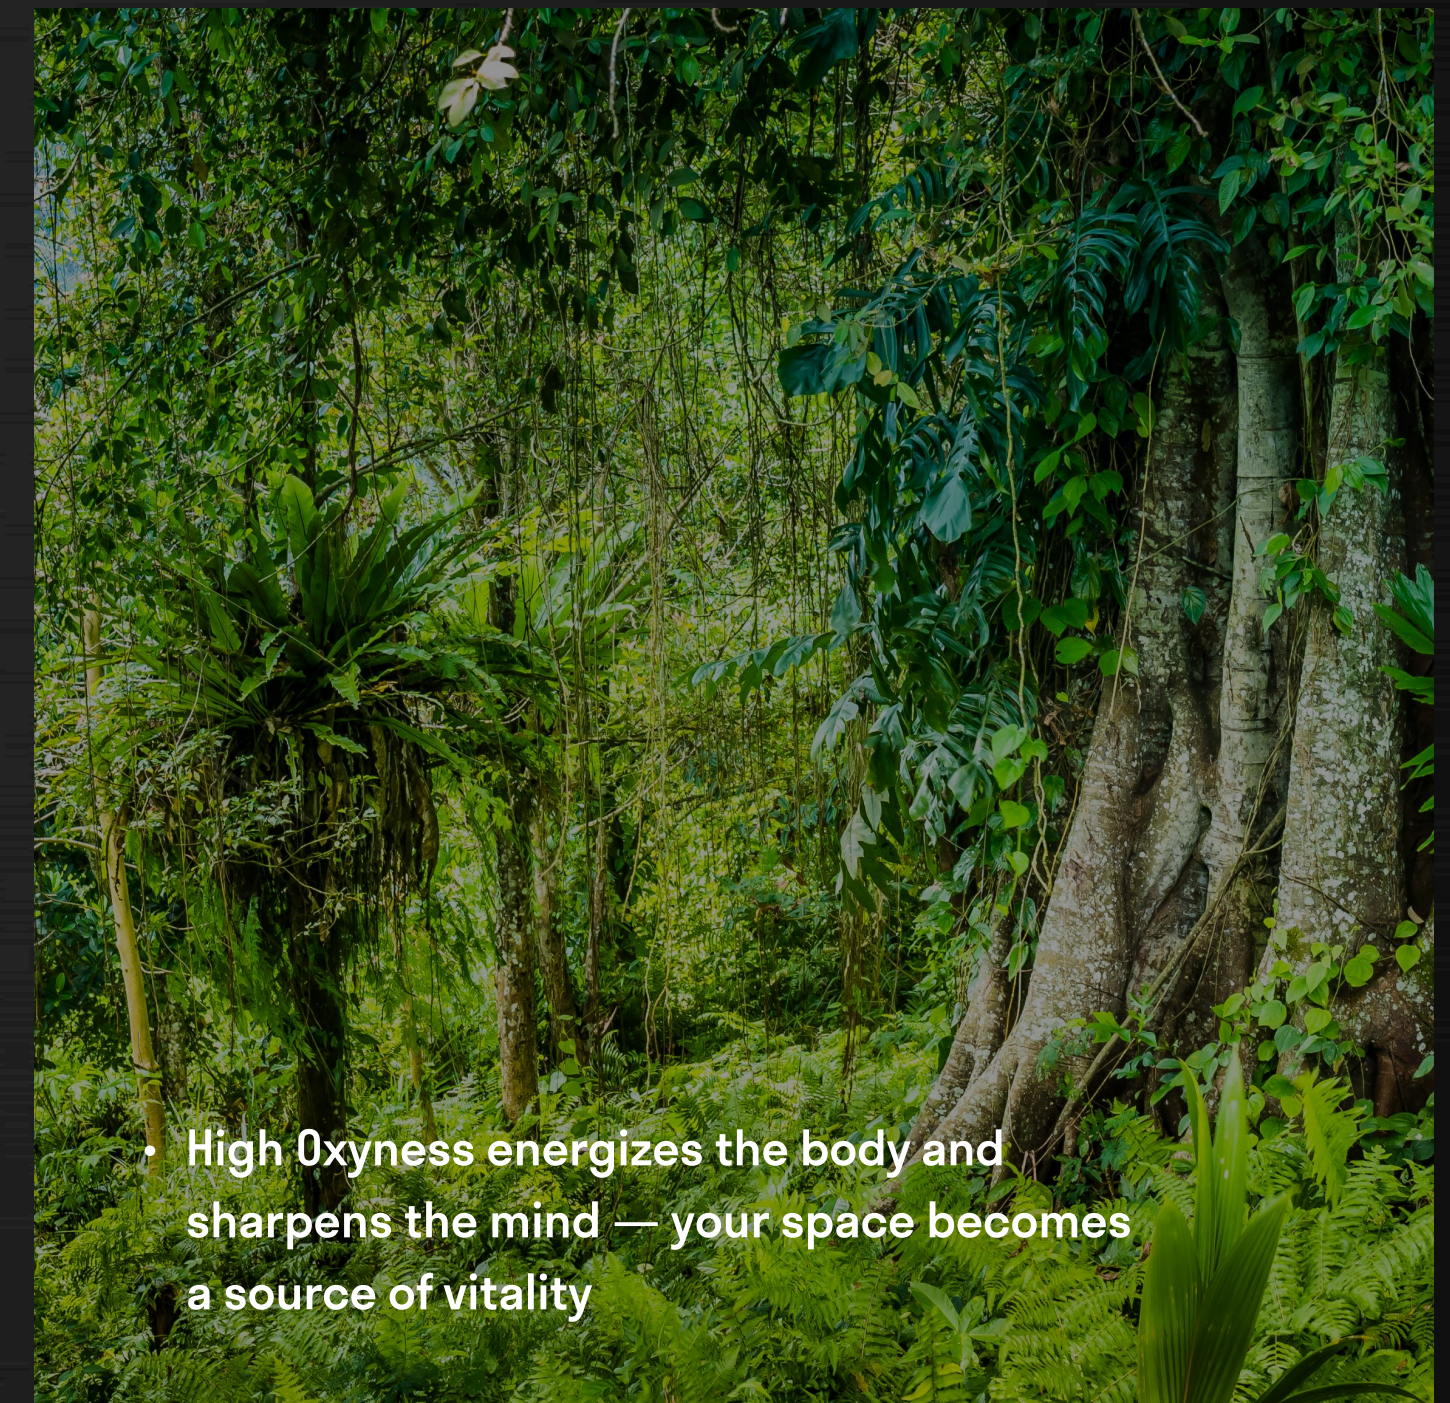

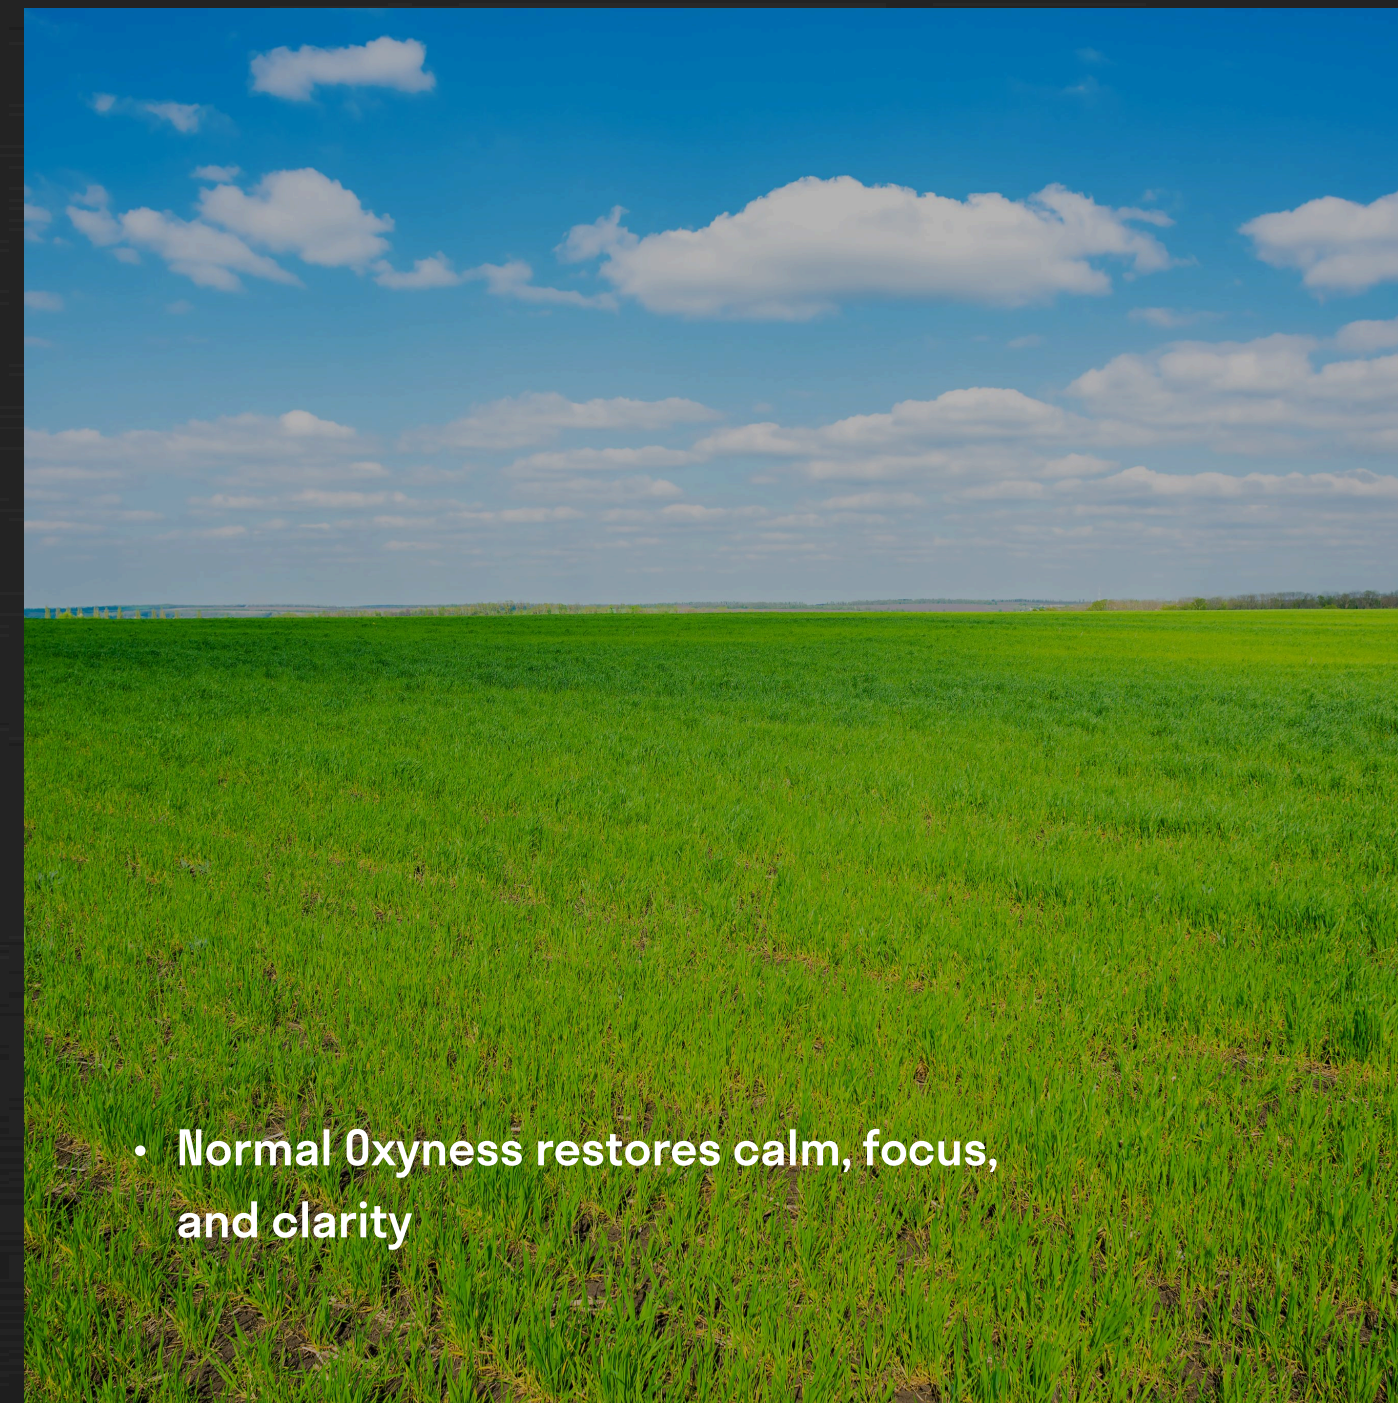

We've optimized for comfort and climate yet overlooked the air's biological power. Oxyness brings that to the forefront — not just as a wellness concept, but as a performance-enhancing environmental standard.

Just as Retina displays changed how we perceive screens and electric vehicles redefined mobility, Oxyness redefines air itself. Once you experience it, there's no going back.

What Is Oxyness?

Oxyness isn't a percentage on a meter. It's a physiological and emotional state triggered by oxygen-enriched air:

The Four Pillars of Oxyness

I

FRESHNESS

- Crisp, breathable air that feels like a forest morning — clean, rich, and alive.

II

HAPPINESS

- Balanced oxygen calms the nervous system, reduces anxiety, and lifts mood.

III

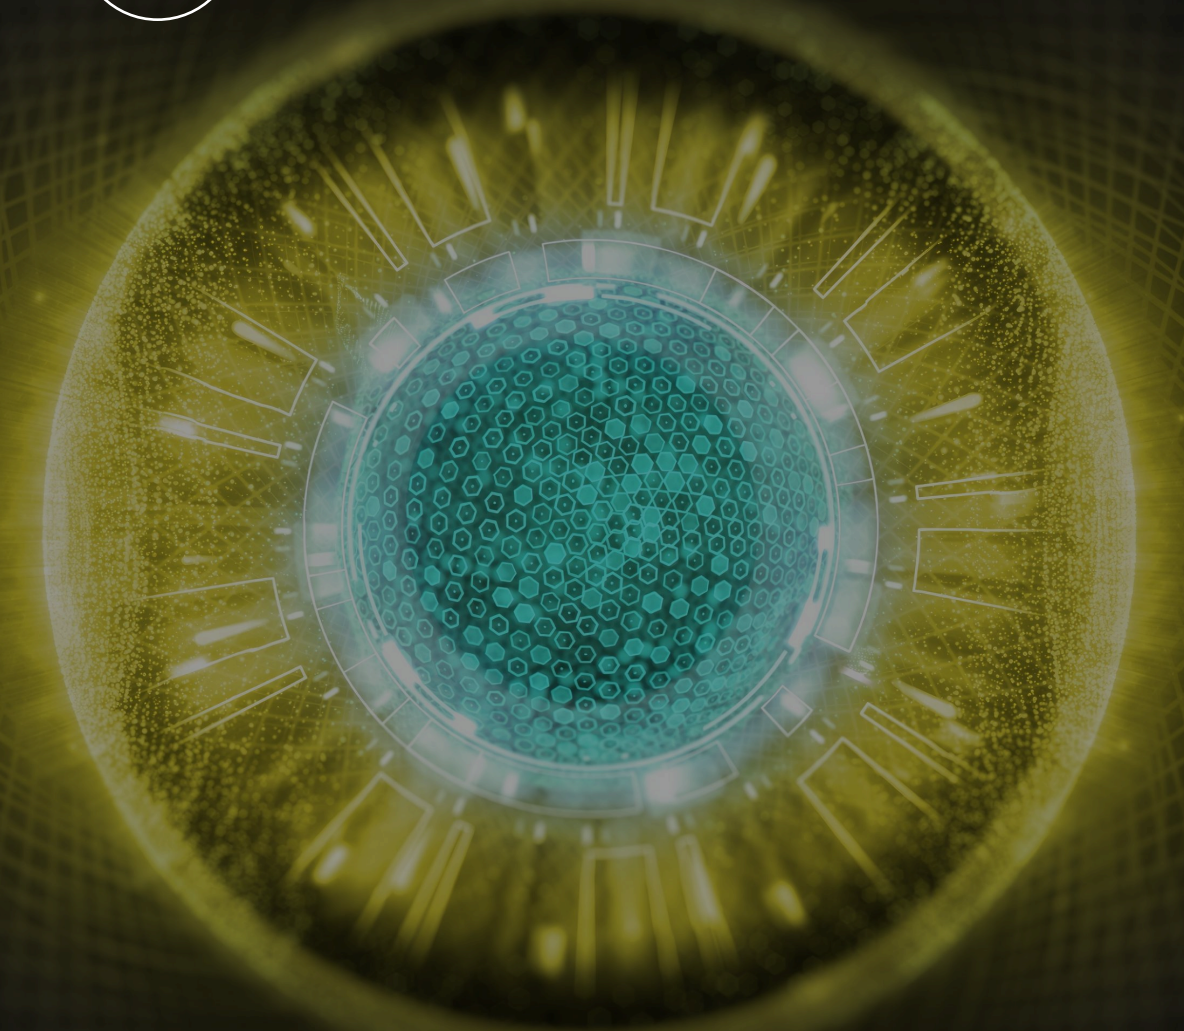

EFFECTIVENESS

- Mental clarity and stamina thrive when the brain isn't starved of oxygen.

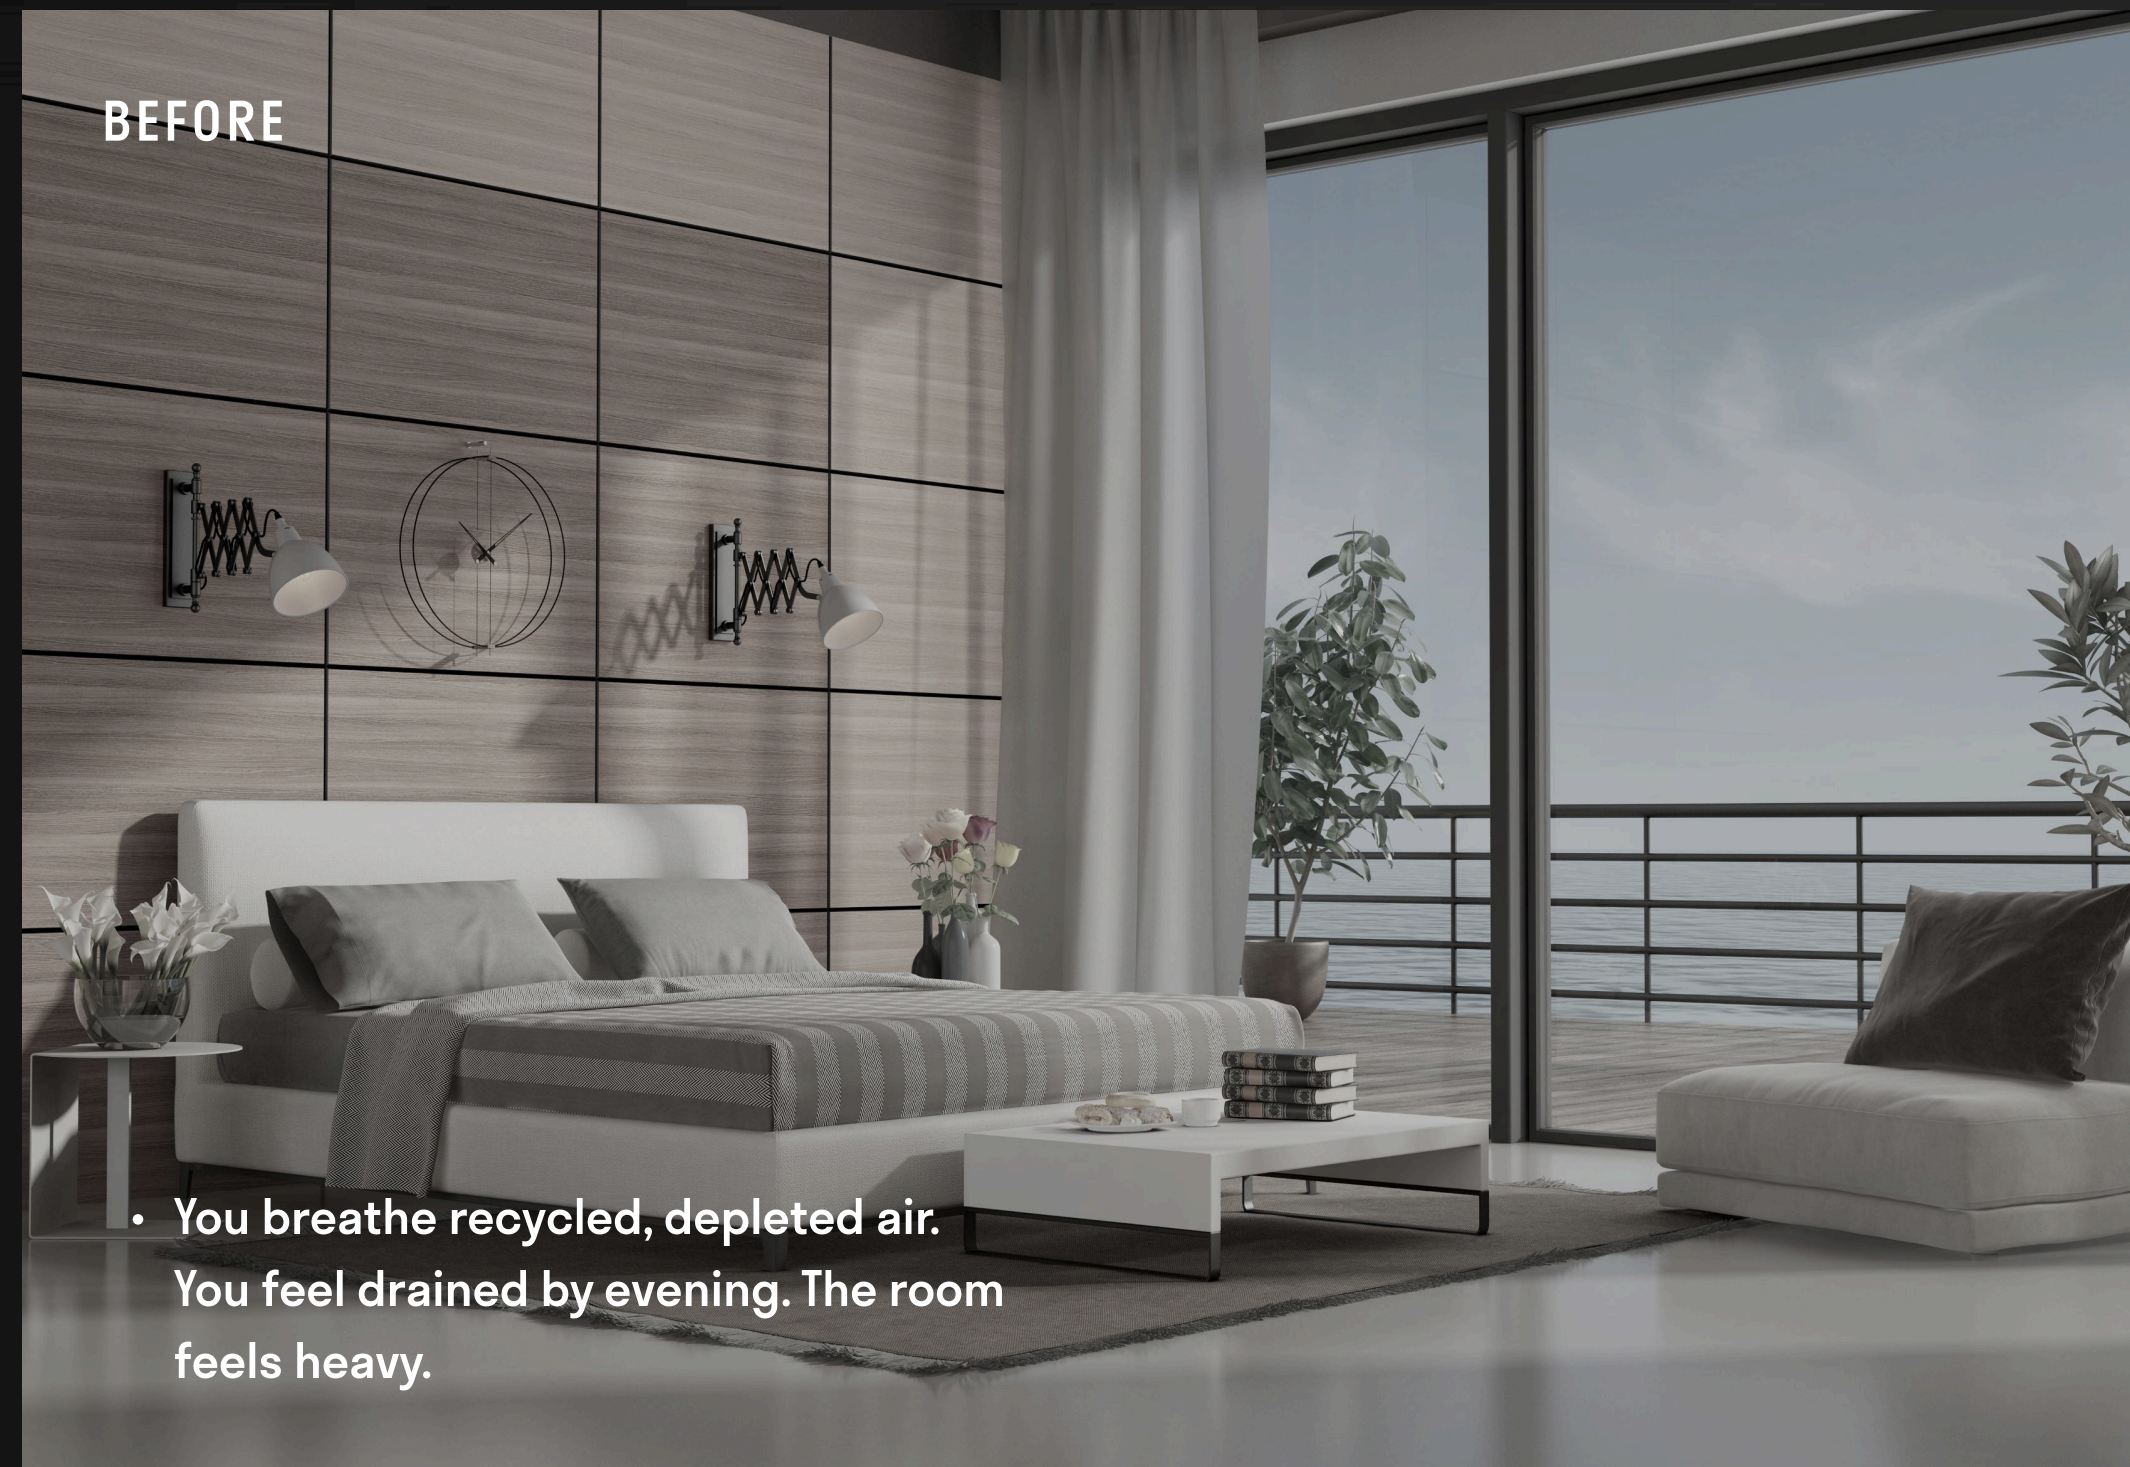

IV

WELLNESS

- Elevated oxygen levels enhance sleep, immunity, recovery, and overall resilience.

Before and After Oxyness

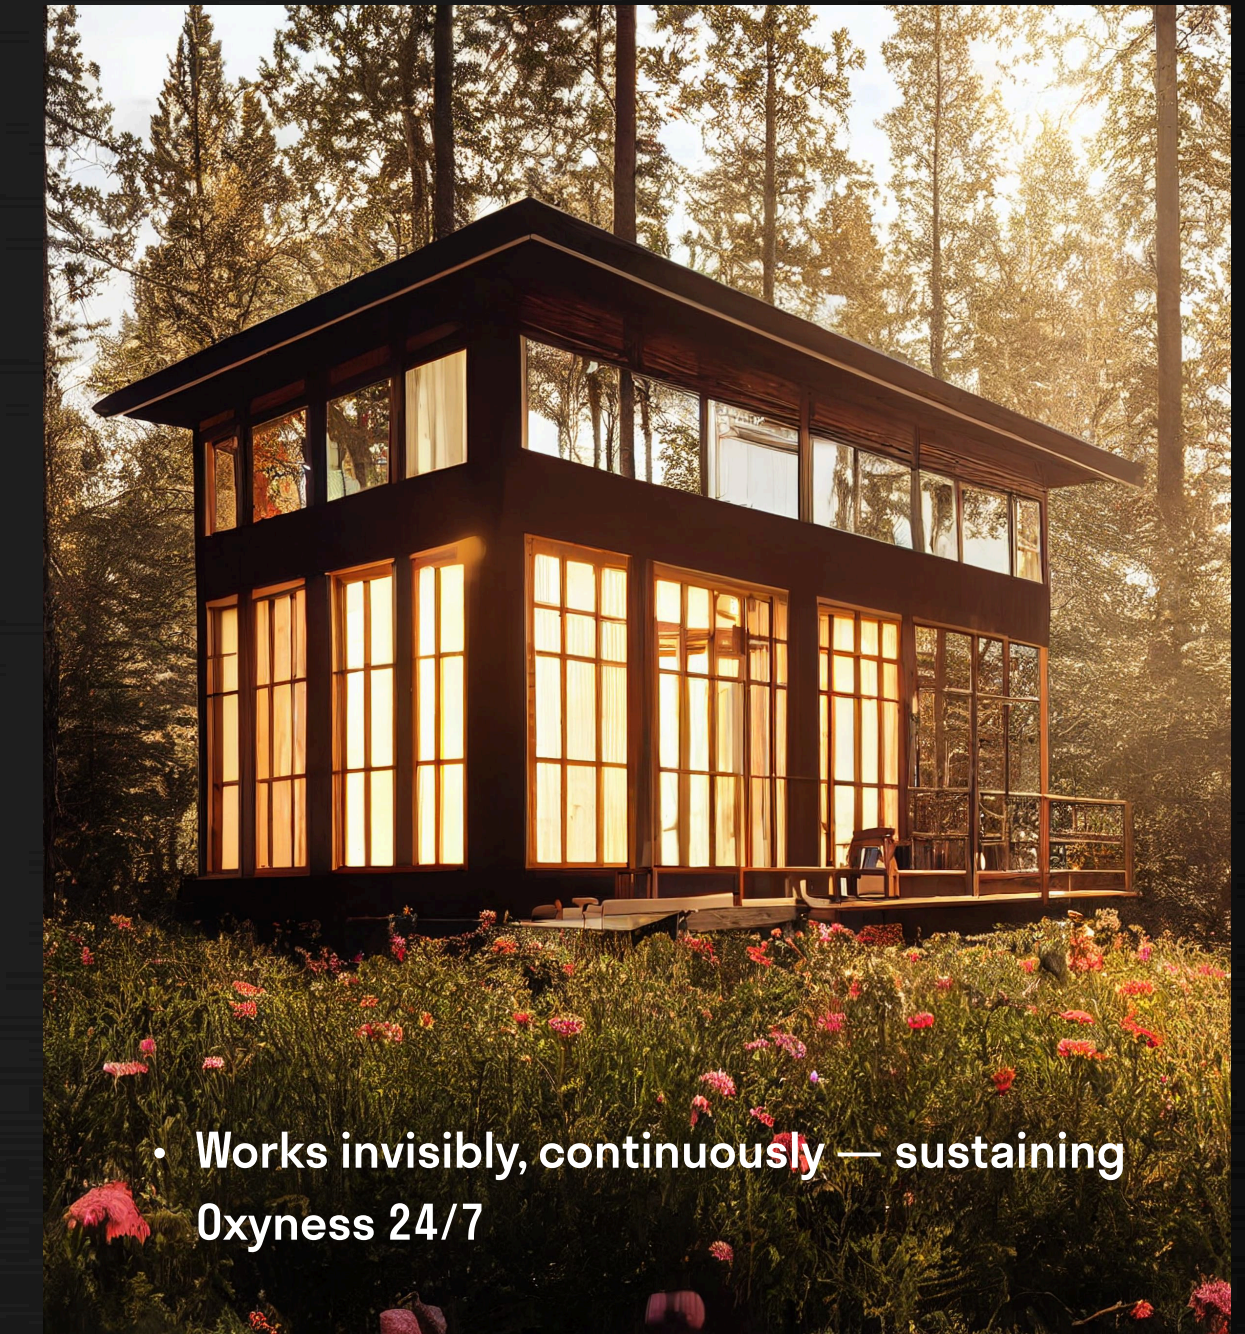

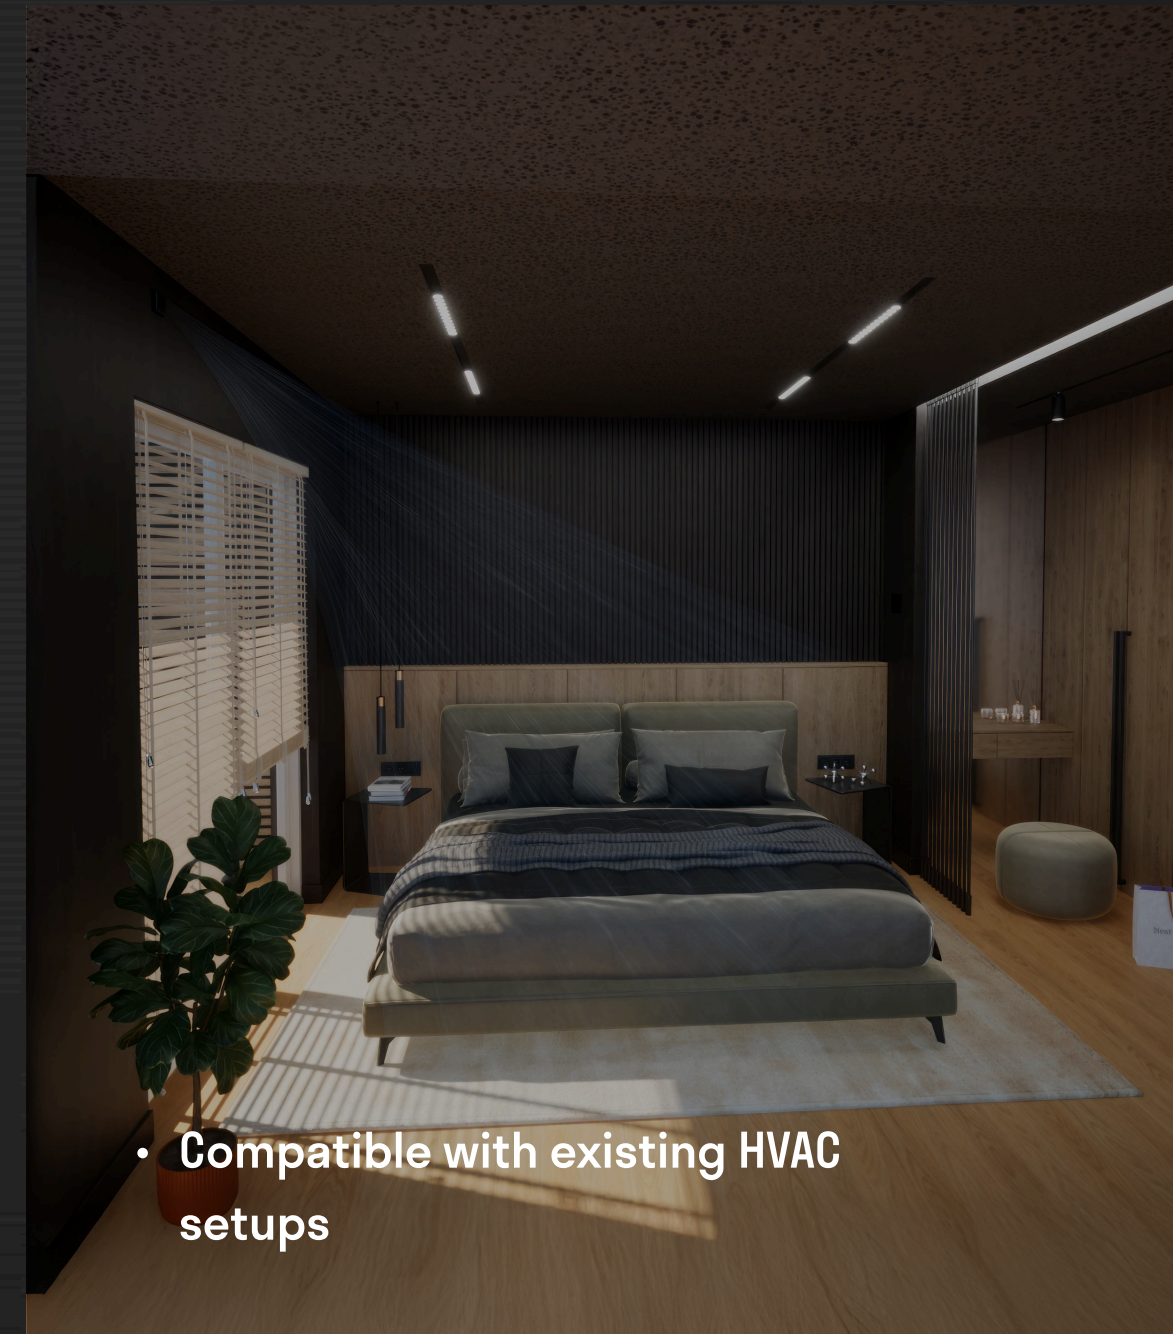

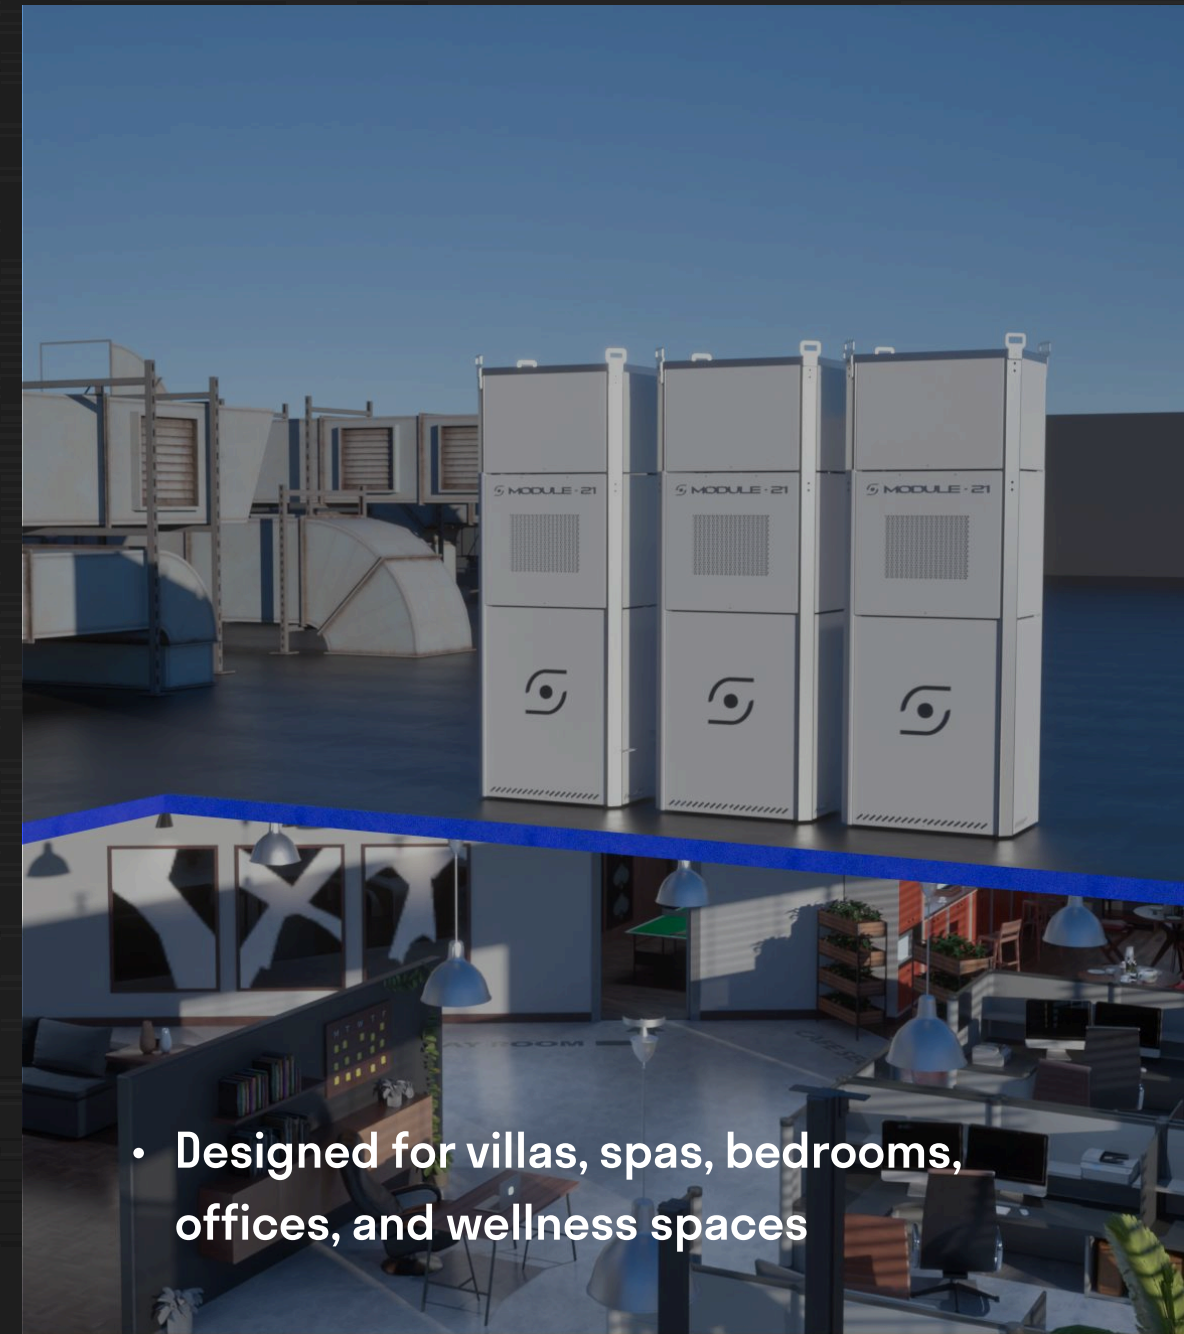

OXYNESS ISN'T AN UPGRADE — IT IS A GAME CHANGER.

Achieving Oxyness with Module 21

Module 21 is the first system built from the ground up for oxygen enrichment at the molecular level.

IT'S NOT PURIFICATION. IT'S NEXT-GENERATION AIR.

The Future of Indoor Living

Sustainable design, intelligent systems, and luxury finishes are now expected. Oxyness is what's next.

High Oxyness environments will be the new gold standard sought by those who value performance, wellness, and true luxury.

Breathe better. Live better. Experience Oxyness.
